- Keen interest in education, tourism and development, travel and conservation

Byaruhanga Michael - Operations Director

- Ugandan
- Ex-armed forces
- Extensive experience in the transport sector
- Professional tour guide and bird guide

The directors are supported by a team in the Kampala office.

Some of the many activities that can be done in Uganda:

Gorilla, chimpanzee, golden monkey and rhino tracking
Big cat experience, tree climbing lions
Wide variety of other wildlife
Over 1000 bird species including Shoebill
Outdoor activities like kayaking, rafting and paddleboarding
Hiking and mountaineering
Community activities
Cultural visits
City activities, from museums to shopping
Relaxation

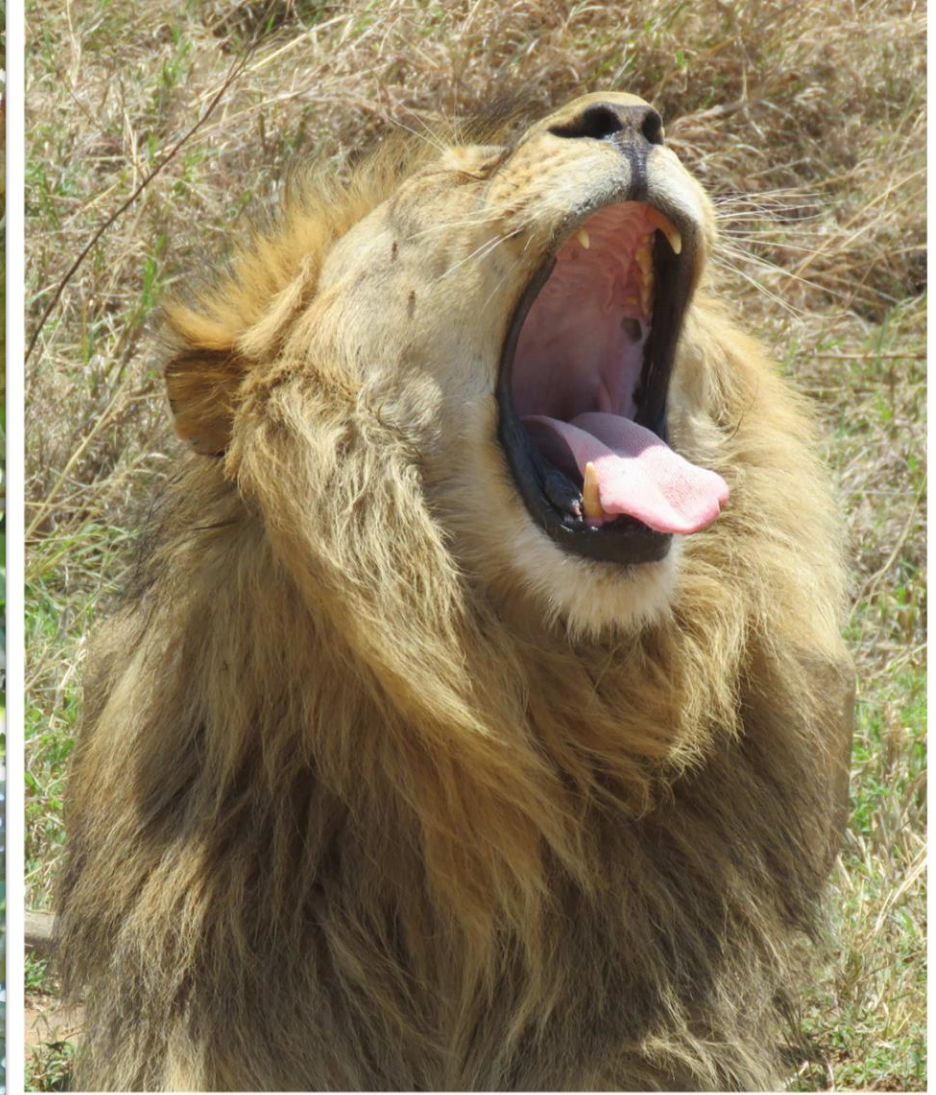

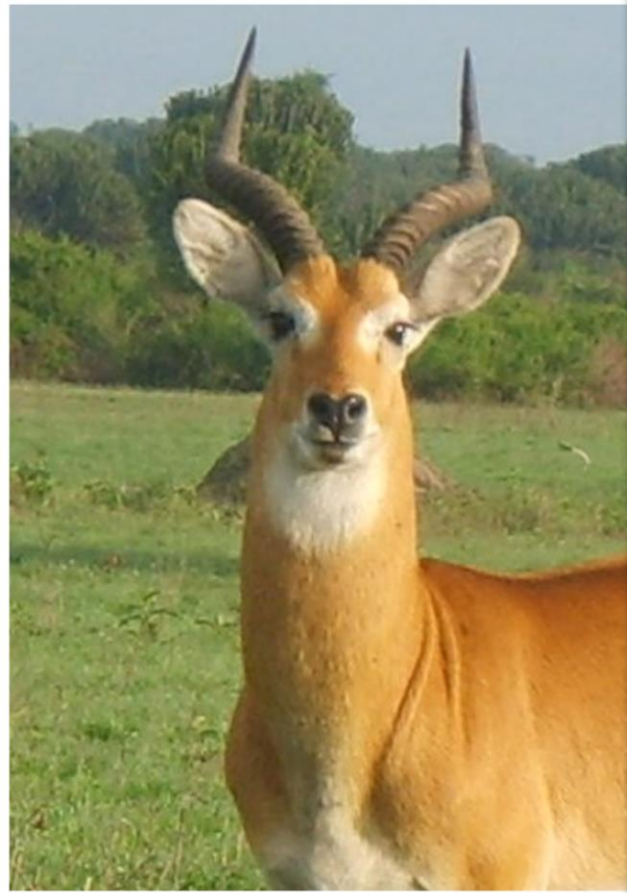

VENTURE UGANDA

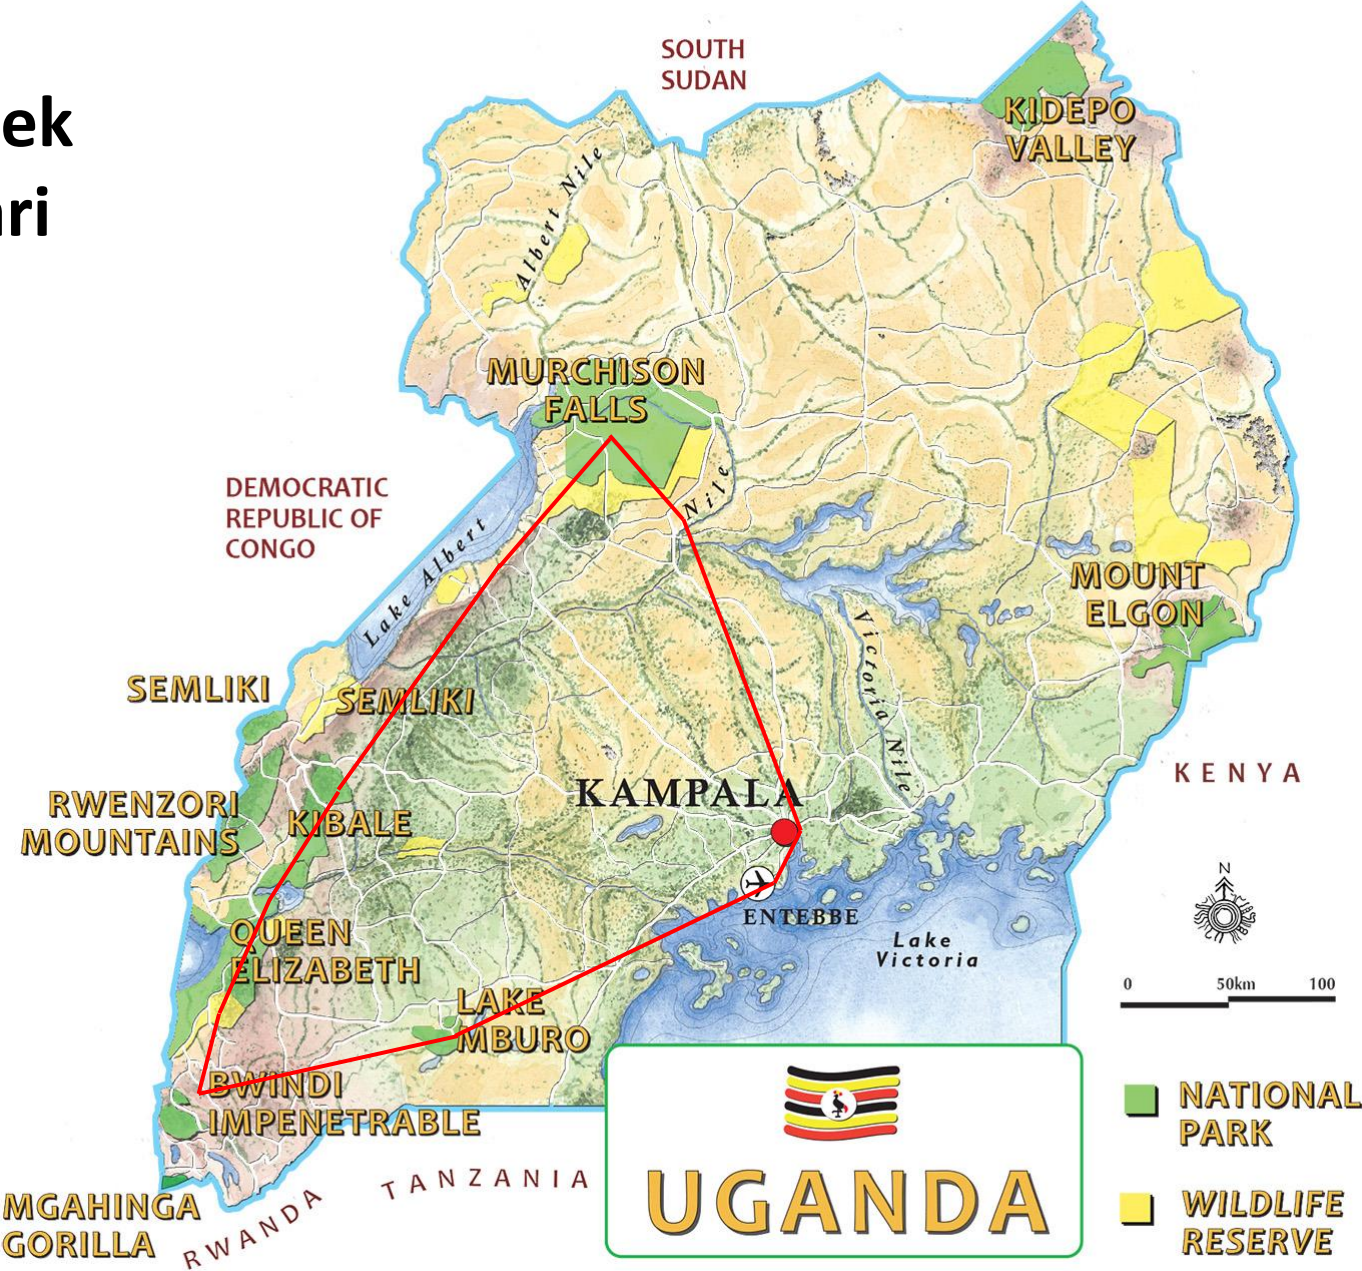

How we package these activities into amazing tailor-made itineraries

1. Driving tours: touring around national parks and other locations, taking in wildlife highlights, other activities and experiencing Ugandan life along the journey. Escorted by a professional safari guide.
2. Fly-in safaris: flying between 2 or 3 properties, where lodge staff drive you to all your activities and for air transfers.

Our best seller would be a 2-week driving safari through western Uganda combining mountain gorillas, primates, other wildlife and some community or cultural activities.

Classic 2-week driving safari

Accommodation

VENTURE UGANDA

Responsible Travel

We take children from park-boundary schools to visit a national park so they experience, and learn to value and protect, the flora and fauna.

We help communities to establish tourism activities to boost their incomes.

We have policies in place for the welfare and professional development of our staff.

We support a primary school in our own community with staff housing, scholastic materials and visits and donations from clients.

We give our clients re-fillable water bottles
